All gasket components are produced to O.E. standards and are ISO 9001:2000 certified to ensure the highest quality and longest performance.

#### Cylinder Head Gaskets

- Gasket body built with exclusive technology featuring a perforated steel core with advanced adhesive to secure the facings to provide enhanced radial strength for better resistance to scrubbing due to thermal expansion
- Exclusive sealing system using a special aluminum compound to provide better load spread
- Exclusive Teflon-graphite coating technology for better heat resistance and more effective sealing of small surface imperfections

#### Valve Cover and Oil Pan

- Manufactured with a variety of technologies for improved sealing properties, torque retention and temperature resistance

#### Oil Seals

- Pre-lubricated oil seals are easy to assemble and provide enhanced resistance to abrasion, oil and heat
